

Bus Maintenance Working to Keep You **SAFE** During COVID-19 Pandemic and Beyond

Prior to COVID-19 Bus Maintenance has made the commitment to keep our patrons and employees safe. The maintenance team has put in place several physical and procedural processes in place to keep the coaches clean.

Physical Security

Drivers Barriers

Disinfecting Drivers Barrier Area

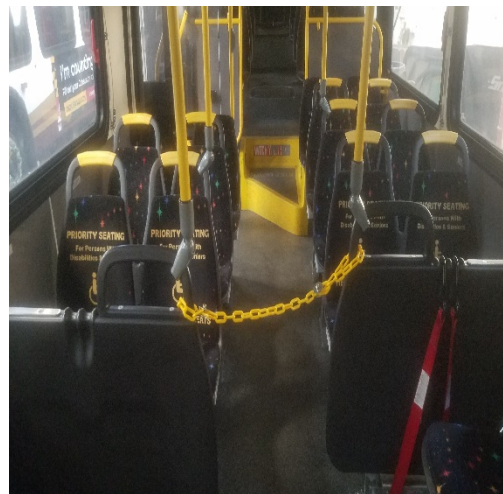

Every coach in the fleet is equipped with a drivers barrier

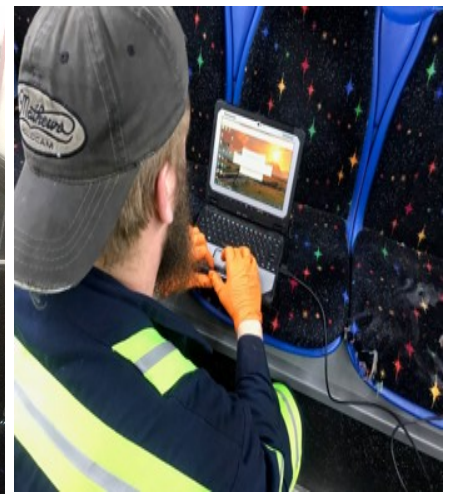

Rear Door Boarding

Rear Boarding Sign

Chain Restricting Front Seating

Rear Door Reprogramming

Treatments

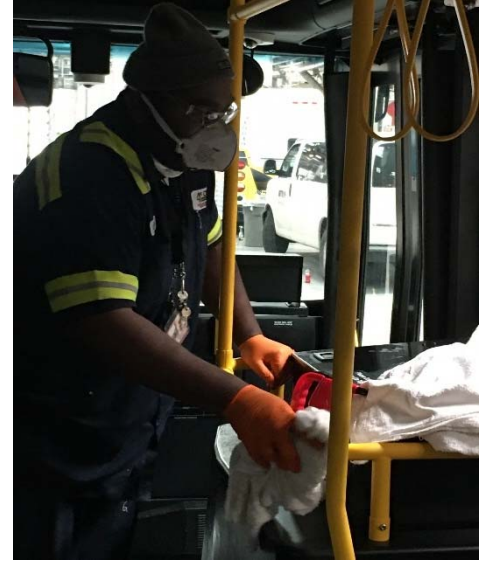

Eco Seal: titanium dioxide (TiO₂) antimicrobial treatment that is applied to all interior surfaces of the coach. It prevents microbe and mold growth and slows the accumulation of grime on coaches.

Interior Prep Cleaning

Exterior Eco Seal Application

Interior Eco Seal Application

Cleaning and Disinfection
